Police Dept. Launches Anti Crime Program

Bogus Schemes to Be Revealed to City Merchants

Another step toward making Albany a "crime-free and safe city to live in" was taken this week when Chief of Police Lloyd Jester announced the inauguration of a school designed to protect Albany merchants and citizens from all types of crime.

The first meeting scheduled for Thursday evening, August 4 at 8 o'clock in the Albany City Hall, merchants and interested citizens will be taught the tricks and methods by which bad-check passers, counterfeiters and shop lifters and other types of criminals can be detected and dealt with.

Speaking before the meeting will be Chief Jester and a Police Inspector from Oakland who will explain methods in use for crime prevention. Exhibits will also be shown to explain points brought out by Chief Jester and his assisting officers.

The school, said to be the only project of its kind and originated by the Albany Police Department, is pointed directly at the expected influx of petty criminals attracted by the 1939 San Francisco Golden Gate Exposition, and will prepare Albany merchants to cope with difficulties expected to be encountered.

Among other suggestions to be made by Chief Jester will be methods by which merchants can best cooperate with the Police Department in the apprehension of law breakers. Plans call for the establishment of a rule by which merchants will obtain the license number of all check passers, as well as other descriptions which would prove of great assistance to the police.

1938-39 City School Budget Is Submitted

Proposed Expenditures Approved by Supt. Allen Keim

Scheduled to be present for public hearing Tuesday evening, August 2, at 8 o'clock, in the Administration Building of the Albany Schools, 1009 Santa Fe Avenue, the proposed 1938-39 budget for the Albany Unified School District was submitted this week for publication to County Superintendent of Schools Edgar E. Muller, by Allen Keim, Superintendent of Albany Schools.

Recommended at the last meeting of the Albany School Board, July 19, by Keim, the proposed budget shows a total expenditure of \$33,806 for current expenses during the coming school year to be divided as follows:

Administration expense, \$5,100; instruction, \$17,241; operation of school plant, \$22,680; maintenance of plant, \$6,210; coordinate activities and auxiliary agencies, \$5,024; fixed charges, \$4,676; capital outlays, \$108,825; non-bonded debt service, none; undistributed reserve, \$23,960. Total estimated income other than district tax is \$240,225.

As a result of economies in budget during the 1937-38 school year, it was stated during the last meeting of the School Board that a city tax reduction of four cents will be seen during 1938-39. This saving was brought about by rigid economies and careful buying on the part of the administration, it was said.

City Traffic Commission to Display Reactrometer Today

Department of Motor Vehicles Apparatus Open for Tests at Cornell School Auditorium Tonight at 7:30

With the driving public invited to take tests, the driving reactrometer of the State Department of Motor Vehicles will be on display tonight at 7:30 in the Cornell School Auditorium.

Brought here under the auspices of the Albany Traffic Safety Commission, the reactrometer will be on display this afternoon, but will be confined to tests of City officials and drivers of city-owned vehicles.

However, it was stated by Mrs. Lela Brunstein, Secretary of the Commission, that the public is invited to use the facilities during the evening and also attend the meeting of the Safety Commission.

Operated by Supervisor A. Fletcher of the Vehicles Department, the reactrometer is a replica of an automobile driving compartment, complete with steering wheel, brakes and accelerator.

Tests to be offered will include brake reaction timings, steering, or eye and hand coordination, and speed estimation tests, as well as vision examination. This latter series of examinations composes one entire section of the apparatus, and includes tests for glare, field of vision, color blindness, and general stereoptic efficiency.

The only apparatus of its type in the west, the equipment has long been awaited here, and Safety Commission members today expressed their appreciation of its arrival since the reactrometer is widely sought by many cities throughout California.

Holding their regular meeting, the Safety Commission, presided over by A. LeRoy Ford, will discuss measures planned to make Albany traffic conscious and to safeguard citizens against auto hazards. Of paramount interests during the meeting is the expected discussion of a safety system for the railroad crossing at Solano and Masonic Avenues, the present safety signal now in use at the crossing having been termed inadequate by the Albany Police Department. Chief of Police Lloyd Jester is expected to lead the discussion.

Officials of the Albany Traffic Safety Commission include: A. LeRoy Ford, President; Walter Teasdale, Vice-President; Mrs. Lela Brunstein, Secretary; and Mrs. May Ellis, Treasurer. Regular meetings of the Commission are held the fourth Friday of each month.

Sue Ann Johnson Celebrates Birthday

Circus day was used as the theme of the party given to celebrate the fourth birthday of Sue Ann Johnson, last Wednesday afternoon by her mother, Mrs. Jerry Johnson, at their home, 1510 Sonoma Avenue.

The affair was held in the garden, where green and yellow pennants were draped about giving it a gala appearance. Later ice cream and two large white frosted birthday cakes, decorated with circus animals, were served. A miniature "big top" was used for a centerpiece and at each guest's plate was a toy lion or clown.

The small hostess has observed every birthday with a garden party and two years ago was named "Miss Berkeley" in a contest.

Those invited were Jo Ann Chapman, Kenneth Roberts, Judy Stevenson, Gloria Stevenson, Carol Clark, Elaine Edwards, Jo Ann Waldron, Marilyn Laudels, Georgia Guppy, Joan Carter, Sally Carter, Suzanne Edwards, Jo Ann Roundtree, Judith Meroux, Karen Price, Bert Geissendorfer, Nancy Sherrick, Albert Cassin, Betty Cassin, Leland Anderson and Dickie Falk.

Among the matrons present were Mrs. Evelyn Stevenson, Mrs. Helen Clark, Mrs. Josephine Edwards, Mrs. Nancy Waldron, Mrs. Margaret Johnson, Mrs. Pearl Carter, Mrs. Alma Edwards, Mrs. Allie Fairhurst, Mrs. Ruby Johnson, Mrs. Florence Roberts, Mrs. Betty Chapman, Mrs. Eva Roundtree, Mrs. Josephine Laudele, Mrs. Marjory Price, Mrs. A. Drennan, Mrs. Lois Falk, Mrs. Billie Anderson, Mrs. Gwen Bush, Mrs. Adele McChesney and Miss Selma Johnson.

GARDEN HINTS

Now that we are in the midst of summer, flowers and shrubs require irrigation or else they will die. Flowers are very much like children, responding to loving care and attention.

Do not plant a garden unless you intend to take care of it. A garden requires continuous care to make it a success. That means work, so unless you love flowers enough to work for them, we advise you not to attempt it. If your time for gardening is limited, do not plant too large a space.

During the summer months your lawn will need extra attention. If it is neglected during the dry season, it will turn yellow and die, and it will then need a great deal of nursing to bring it back. As we have pointed out many times, it is far less expensive to use plenty of water for the lawn, than to have to plant a new one. A light sprinkling now and then is not enough. A good soaking once a week is more effective.

For shady spots, among the shrubbery, underneath the trees, or on the north side of the house, plant cinerarias. If your house faces north, the question as to what to plant there is answered by the cineraria.

Cinerarias may be raised from seeds and August is the month for planting them. However, the seeds are very small and most amateur gardeners do not have good luck with them. So we would advise purchasing the plants from the nursery for fall planting. They should be set out in beds which have been thoroughly spaded and to which have been added well rotted cow manure, leaf mold and a little bone meal.

Cinerarias require good drainage and moisture. Never let them dry out in windy or hot weather.

There are many different types of cinerarias. The very large hybrid strains are very beautiful, the individual blossoms sometimes being four or five inches across. Then there are the more compact and harder types with blossoms about half the size of the large strains. The oldest variety, called cineraria stellata, is taller and the flowers come in branched clusters and are small and starlike. Many gardeners prefer these.

Cinerarias are very showy and come in gorgeous shades of purple, intense blues, crimson, rose, violet, pink, white—in fact every color except yellow. We might add, however, that the dusty miller has a yellow blossom and belongs to the cineraria family.

SO ALL MAY SHARE

The amendment that California ratified a quarter of a century ago along with 41 other states has today been called into service to draft thousands of her state employees into the ranks of taxpayers — where the rest of us have been serving time for years. Last week's far-reaching opinion of the Justice Department, giving carte blanche to legislation applying the Federal income tax to state bondholders, officers and employees, took its inspiration from the Sixteenth Amendment authorizing Congress to tax income "from whatever source." So moves one step nearer its goal, the campaign begun years ago to make our public servants serve the public by helping the rest of us dig the government out of the red with the only stuff that seems to work — pay dirt. Or taxes. Soon we shall all share.

CALIFORNIANS KNOW HOW

California produces people that get results. We like to think Andy G. zales of San Jacinto, who blinked briefly in the spotlight of attention a few days ago, had that tradition in mind when he applied himself to the solution of a baffling problem. It wasn't a world-shaking puzzle, but it was sufficient to defy the efforts of seven men, a horse, a block and tackle, and many yards of heavy rope. His cow, Flossie, had gotten herself hopelessly mired in the quicksands of the San Diego River. Neither man, beast, nor cable could budge her. So Andy bent over and bit her tail. With a wild lunge, Flossie struggled out. Swim, play tennis, fly an ocean, or get a cow out of quicksand—a Californian will do it better every time!

BEAVERS TO THE RESCUE

Remember those beavers Uncle Sam was going to put to work in Idaho this summer? Well, those busy little animals are doing their share of anti-erosion work, improving watering facilities and forage crop conditions, but they're holding fast to an ancient principle — the laborer is worthy of his hire. Since they cost the government only \$5 each, and do about \$300 worth of work in a year, their point of view is understandable. So after being trapped, they tie up to CCC camps for a few days and fatten their vitamin supply with free government board consisting of corn on the cob, apples, carrots, bread and grain. Then the CCC boys build a temporary dam, just to give the beavers a generous hint of what we taxpayers expect of them, and then the furry conservationists are off to the races. A \$300 return on a \$5 job is the kind of thing financial wizards dream about. Unfortunately for them, the wizards probably never dreamed about beavers!

Next time you hear about the widely self-advised efficiency with a capital "E" of Greater Germany, you have only to recall the story of an American newspaper's pressbureau in Vienna — and how it moved to Prague. Last week there was virtually as much celebrating in the New York offices of this paper as if the Atlantic had been spanned with a suspension bridge. For it had taken two entire months to move the contents of four small rooms! Red tape by the mile had to be untangled, innumerable documents had to be filled out in painstaking detail down to the last carpet tack, officials had to be interviewed, inquiries made and inquiries answered. Eventually the monumental bulwark of bureaucratic "efficiency" was finally hurled, and last week the last office wastebasket was free to leave Vienna amid the cheers of wearied correspondents. Efficiency in old Vienna's lazy waltz time, we gather, had the furious rush of a Ben Hur chariot race compared to the new efficiency which gums up everything like flypaper.

Activities at Albany "Y" And Community Center

(An Agency of the Berkeley Community Chest)

Meeting one of the highest rated men's teams in the East Bay, the Zephyrettes will play the Cochran-Celli club, Oakland Recreation League, contenders, Sunday afternoon at University Park.

According to Ernest Cox manager of the Cochran-Celli team, his team is looking forward to playing this game with the Zephyrettes as he has heard many comments on the improvement of the girls' team. He is regarded as being one of the best softball managers in this area, and is widely known for his sportsmanship, both on the field and in private life.

An agreement has been made between Ernest Cox, and Tal Wiley, manager of the Zephyrettes, whereby the Cochran-Celli team will use a girl pitcher, and the men will bat left handed.

Preceding the Cochran-Celli vs. Zephyrette's game, the Zephyrette's will tangle with their Albany rivals, the Dondero girls. Having played the Dondero's three times, winning the first two, and dropping the last game in a somewhat unfinished manner the

game is sure to be one which will provide plenty of fire, and surprises for the Dondero girls.

The Zephyrette's will present for the first time their new smoke ball pitcher, Eileen "Kie" Wulfendinger, who comes to the Zephyrette's highly recommended for her versatility as a pitcher, she is known for the completeness of tricks and knowing how to use them.

The Zephyrette's lineup will be as follows:
Delberta Whitney, 2nd base; Marion Kreider, 1st base; Donna Bosworth, centerfield; Blendene McCormick, catcher; Eileen Van Hagan, shortstop; Lorraine "Mickey" Gallagher, 3rd base; Luella "Johnny" Johnson, SF; Judy Cox, leftfield; Lea McCormick, rightfield; Eileen "Kie" Wulfendinger, pitcher. Substitutes: Elda Wiley, catcher; Lola Young, rightfield; Dorothy Lee, centerfield; Doris Dutrow, leftfield; Francis Young, pitcher.

The first game will be played at 7 p. m. and the second to start at 8:30 p. m. The games are to be played at James Kenny Park, Thursday, July 28th.

Grizzly Bear Was Peaceful Animal, Scientist Shows

Interesting sidelight in California's extent grizzly bear, which tend to show the male at least in a very good light, have just been published by Professor Joseph Grinnell, director of the Museum of Vertebrate Zoology at the University of California. No less an authority than Vital Cayton Reche, whose father founded Fallbrook, San Diego county, in 1869, states that he met the great bear often while riding range on his father's holdings and elsewhere.

If the observer stood still and made no aggressive move, the male grizzly would rise on its hind legs, after the fashion of a picket-pin squirrel, and look intently at the intruder. After watching awhile it would shake its head from side to side, as though deciding against an attack, long on all fours and start running away, according to Reche's account as described by Professor Grinnell.

But the white man very evidently did not accept the male grizzly's offer of peace, nor fear the much more aggressive attitude of the female. According to Dr. Grinnell's chronicle a certain George Nidever shot 45 grizzlies in the year 1937 alone, in the vicinity of San Luis Obispo. Altogether during his wandering up and down the coast he thought he had killed upwards of 200 grizzlies, judging from the tone of the record he left behind him, he shot the bear for the most part just to show what a good marksman he was. At the time there was no sale for the skins and no one took the trouble to remove them. The hunter just let the bear lay.

Some vaqueros delighted in capturing the bears alive, to use them in fights with bulls. This sport flourished at one time in California.

District Pays \$124,168 in J.C. Tuitions

Costing the district \$124,168 over 900 boys and girls graduating from high schools in Alameda County, were transferred to junior colleges in other parts of the State, during the 1937-38 school year.

This cost was made necessary due to a State law requiring any county not maintaining a Junior college to pay tuition costs of any resident desiring to attend a junior college elsewhere. Tables of cost show a rapid increase in this phase of education during the past five years.

In a report from County Superintendent of Schools Edgar E. Muller's office, this week, it was stated that the average daily attendance report has been confirmed by the State Department of Education. School funds are allotted on the basis of this report.

Total amount of State funds to be received by Alameda County for 1938-39 will be \$5,373,409.93 of which over two million dollars will come from the State School Fund. The remainder is apportioned from the State General Fund. Of this amount, over two million dollars will be used for Elementary school purposes with a second nearly equal amount to go toward high schools.

Art Classes to Be Opened by Albany Artist

It isn't often that a city is so fortunate as to entertain as one of its citizens, a woman who has received the acclaim of some of the more noted artists of this State. And it isn't often that an artist can include nearly all the major arts in her repertoire.

However, you haven't met Mrs. Lucille Baker, who lives at 84r Jackson Street, for, not satisfied with her work as a sculptor during her study years, she has applied her versatility to include not only her mother study, but to have become proficient in pen and ink work, architectural drawing, tile, oils, charcoal, pottery molding and design, and fresco work.

The wife of E. Baker, former electric porcelain manufacturer, recently retired, Mrs. Baker divides her time between caring for her two daughters, seven and eight years, and designing architectural sketches. Most recent of these is her design for the entrance of the Associated Press building, now being constructed in Rockefeller Center, New York, which will be entered in a nation-wide contest.

Recently appointed as official artist for Albany's planned Golden Gate Exposition exhibit, Mrs. Baker this week completed an exhibition drawing depicting Albany, in combination with the Spirit of the Fair, for the Chamber of Commerce.

Augmenting her work here, Mrs. Baker this week revealed plans to open an art school in Albany where grown-ups and children alike might study fine pottery work, drawing, sketching and other branches of art. Announcement of classes will be made within the next few weeks.

Some canning factories use a brine solution to separate tender and hard peas — the tender ones float and the harder ones sink.

NATIONAL PRESIDENT GUEST

Mrs. Laurie Schertle, center figure in the above picture, and National President of the Veterans of Foreign Wars Ladies' Auxiliary, was guest of honor of Leland Bergesen Post Auxiliary Tuesday evening at a banquet held in the Veterans Memorial Building. With her, left and right, are Mrs. Bertha Scholz, President of Leland Bergesen Auxiliary, and Mrs. Lora Nice, President of the Alameda County Council.

Albany Savings, Loan Association Enlarges Offices

The Albany Federal Savings and Loan Association is enlarging and remodeling its offices at 1055 Solano Avenue.

The whole exterior and interior is being redecorated in accordance with the latest vogue and style for financial institutions. Counter windows are provided for two departments. One for the receiving and paying out of money on savings and investment share accounts, and the other for the receipt of loan payments and collections. Tables and chairs will be provided for those who desire to look over the latest architectural magazines and house plan books.

According to Mr. Lotz, president of the association, it has been necessary to enlarge the facilities of Albany's Federal Savings and Loan Association on account of the great increase in business of the association. That large number of new savings accounts opened by the citizens of Albany who demand absolute safety for their savings, availability when they are needed, and a 4 per cent return on them, requires increased space for efficient handling.

An invitation is extended to those who desire to view the remodeled premises and get acquainted to step into the offices of the association at 1055 Solano Avenue any time after the 1st of August.

Mrs. Thompson Returns From A.M.O.R.C., Meet

Mrs. Emma Thompson, 813-A Adams Street, Albany member of the Rosicrucian Order, recently returned from the International convention of Rosicrucians, held in San Jose, announced this week that the Order will send delegates to Tibet for study with Tibetan Llamas.

Preceding their trip into Tibet, the delegation will study at Andhra University in Madras District, India. The delegation is sponsored by the Rosicrucian Egyptian Museum, and A.M.O.R.C. fraternity.

Ex-Newspaperman Opens Offices as Publicity Agent

Formerly a staff member of the Albany Times, and connected with several other community newspapers for the past six years, Abe Lemes, 837 Carmel Avenue, this week announced the opening of publicity offices in Albany.

Lemes, Albany representative for the United Press at the present time, is well known for his activities in promoting community projects. Among these directly under his sponsorship have been "MacGregor Day" held in honor of C. M. MacGregor, contractor and builder who constructed the greater portion of Albany dwellings, and the 1937 Traffic Safety Day which attracted nation-wide acclaim.

Prize winning animals from a dozen states and foreign countries, competition of Future Farmers of America and 4-H Clubs, and a two mile, \$2,000,000 livestock parade will combine to attract the attention of the livestock industry.

Members of the livestock department committee are: Adolfo Camarillo, Camarillo; D. Eymann Huff, Orange; T. H. Ramsay, Red Bluff and Charles H. Sooy, San Francisco.

WILDCATS DEFEAT RECREATION CLUB

Continuing their winning streak of nine consecutive victories, the Top Hat Wildcats defeated the Albany Recreation Department club, Sunday, 5-1. The Recreation club is the only team to have beaten the Wildcats this year.

Features of the game saw Sena go to bat three times for two hits, one a triple, with Biogi following for a second triple. On the mound for the Top Hatters, Viramontes allowed four hits with a total of nine fan-outs.

Japanese Victory Would Antiquate Europe—Durant

If Japan succeeds in conquering China and capturing the rich Oriental markets, European civilization will slip back to the simplicity of four hundred years ago.

This was the statement of Will Durant, famous author and philosopher, now teaching in the Summer Session on the Los Angeles campus of the University of California, in a recent lecture on "The World Conflict: A Study of the International Situation."

Domination of the wealthy Oriental trade markets by Europe has provided the riches with which to build the mellow Western civilization of today, the philosopher declared. The only way Europe can save itself is to drop its feuds and unite against the threatening East.

"I believe European civilization is worth preserving," Durant stated. "The only way to do this is for the 'have-not' nations. I am glad to see that this is being done in the policy of Neville Chamberlain toward Italy and Germany."

"The democracies should organize the conquest of Ethiopia. It is best to sacrifice a little morality to save the whole structure. I would support the division of Czechoslovakia to pacify Germany; although I would hate to see this brave little nation destroyed, she is endangering the peace of Europe."

With a united Europe, Durant declared that he would favor the United States joining in a common front to stop the war in China. But if Japan refused to yield to the demands of Europe, the philosopher would let Europe fight Japan, since a united Continent could easily defeat the island empire and the United States has nothing to gain in such a war.

The so-called clash between democracy and dictatorship will have nothing to do with the next war, according to Durant. These terms he described as mere words to be used as tools for the indoctrination of the masses.

"Democracy will be the first casualty of the next war. The only agency swift enough to carry on a modern war is a dictatorship," Durant declared.

Car Strikes S. F. Man Here Thurs.

Struck as he stepped out from between two parked cars at the corner of Solano and San Pablo Avenues Thursday morning, N. V. Moore, 56, of 1366 High Street, San Francisco, was hit by a car driven by Robert Kurth, 878 E. 28th Street, Oakland.

Suffering from lacerations about the face and body, Moore was taken to Humboldt Hospital by Chief of Police Lloyd Jester. He was later released at his own request.

Moore, witnesses said, in an attempt to catch an approaching Southern Pacific Car, stepped from between the two cars directly into Kurtz' path. Kurtz was not held.

U. C. Presents Special N-B-C. "Town Meeting"

America's Town Meeting of the Air, one of radio's outstanding educational features, will originate in Wheeler Hall Auditorium on the University of California campus Friday, August 5, 4 to 5 p. m., Pacific Standard Time. The program will be released over the nation-wide Blue Network of the National Broadcasting Company.

Discussing the question, "The Founding Fathers: Guidepost or Millstone?", the speakers, Chester Rowell, Dudley O. McGovney, and Frederic Logan Paxson, will give their respective opinions as to whether the "fathers" of the United States Constitution should be looked to for guidance in meeting our present-day governmental problems. The regular chairman of Town Meeting broadcasts, George V. Denny, Jr., will come to Berkeley to conduct the meeting.

Journalist, lawyer, and historian, respectively, the speakers are men of national prominence and are expected to give a well-rounded discussion of the question. Chester Rowell, Editor of the San Francisco Chronicle and a Regent of the University of California, is Chairman of the Ninth Region Program Committee for the Republican Party. Dr. McGovney, Professor of Law at University of California, is a recognized authority on Constitutional Law. Dr. Paxson, Professor of United States History, is President of the American Historical Association. Questions from the audience, directed at the speakers, will follow the formal discussion, in accordance with the established formula of Town Meeting broadcasts.

The event will be open to the public by ticket only. Tickets may be obtained free of charge at Window No. 1, Comptroller's Office, California Hall, on the campus. No tickets will be mailed. Seats will be reserved not later than 3:45 p. m.

The Berkeley session is the fifth and final program of a summer series of Town Meetings which are being held at various institutions of higher learning. The series was launched on July 8 at Harvard University. Other points of origin include Chautauqua, Northwestern University, the University of Denver, and finally the University of California.

Rasputin To Meet Purple Shadow

The most eagerly-awaited duel of the season matures Friday night at the Oakland auditorium when Ivan (Gorilla Man) Rasputin wrestles the main event with the unknown "Purple Shadow."

Every available grappler on the Pacific Coast has tried his hand at unmasking the hooded monster, including the world's champion, Bronko Nagurski, who was equally unsuccessful.

Fans believe that Rasputin can turn the trick if he ever gets his famous "death lock" on the "Shadow's" neck.

Sharing the top honors on the featured program, Terry McGinnis meets Don Evans in the second main event. To decide which pair will win over the two hour, three fall, or the one hour, one fall route, a coin will be flipped in the center of the ring.

Following are the other bouts: Hank (Bald Count) Metheny, St. Louis, vs. Hans Kaempfer, Germany, 30-minutes, one fall.

Marvin Westenberg, Long Beach, vs. Alex Kasaboski, Detroit, 30-minutes, one fall.

Jack (Gentleman) Washburn, Chicago, vs. Jack (Cowboy) Purdin, Arizona, 30-minutes, one fall.

The fragrant odor of sweet grass is very faint when the grass is growing, and proper curing of the grass after gathering is necessary to bring out the scent so that it will last for several years.
